

The Fine Arts Department at St. James Catholic School was presented with an etched crystal sculpture from CASA (Court Appointed Special Advocates) in appreciation for the donated children's art they received this year. As part of our "Art Serves: For the Children/By the Children" service project, students donate their artwork to various facilities that help children who are hurting emotionally or physically. In addition to CASA, students have donated artwork to Memorial Hospital, Memorial Pediatrics, St. Jude's, and the Ronald McDonald House.
